

## Additional Services

### Rush Testing

- Test results can be delivered sooner than our standard 4 working days if rush service is requested.
- Test results can be delivered 24, 48, or 72 hours after we receive a sample.
- For some tests, results can be delivered on the same day we receive the sample.

### Consultation

- Our laboratory director, Vicky Seto, is available for consultation.
- She regularly provides valuable guidance and insight for companies of all size.
- She is knowledgeable and experienced in regulatory compliance issues.

## Pricing

We offer competitive prices on all our analytical tests. Please contact us for a price quotation. We will determine any applicable discounts and fees for additional services.

## Equipment & Facilities

- We use state of the art instruments to obtain precise, accurate and timely results.
- Our laboratory currently has 34 High Pressure Liquid Chromatography (HPLC) and 6 Gas Chromatography (GC) systems including 2 GC systems equipped with headspace samplers.
- In addition to these systems, our equipment calibration department maintains ovens, furnaces, balances, pH meters, temperature meters, viscosity meters, dissolution systems, and other analytical instruments. Calibrations for our mass and temperature reading devices are traceable to NIST standards.
- Our stability testing equipment consists of 25°C/60% RH and 40°C/75% RH ovens that are FDA compliant to ensure that the shelf life will always be correct.

## Quality Control

Adamson Analytical Laboratories is committed to performing only the highest quality analyses. Our methods are professionally developed and exhaustively researched to ensure complete reliability. We thoroughly train and test our chemists in laboratory procedures and techniques. Our equipment calibration department regularly calibrates and maintains our state of the art equipment. We are committed to establishing and following these and other quality protocols so that our customers receive the best service.

## Regulatory Compliance

Adamson Analytical Laboratories is FDA registered. We are licensed by the DEA to test steroids and other controlled substances. All our methods are in accordance with acceptable national and international standard methods including US Pharmacopoeia (USP), British Pharmacopoeia (BP), European Pharmacopoeia (EP), the Association of Analytical Chemists (AOAC), and the Food Chemical Codex (FCC). We are audited by the FDA, DEA and Canadian Health.

## Confidentiality

Our laboratory staff has always maintained client confidentiality because we understand the importance of customer products and formulas. Our clients can be assured that discretion is our priority when handling any client information or material.

## Tour Us

We invite you to schedule a tour of our facility in Corona. We are located in southern California 50 miles east of Los Angeles.

Supplements

### FDA Import/ Alert Testing

Candles Paraffin  
Chloroform Aerosol  
Cosmetics Color  
Eye Area Color  
Hexachlorophene  
Melamine  
Procaine Drug  
Residual Solvent Class 1, 2,  
3  
Unspecified Ingredient  
Undeclared Drug

### Bio Tech Coming Soon!

We are currently  
performing ongoing  
validations for:  
  
Food Allergens - Elisa  
GMO Crop for Exportation  
Skin Allergens – In Vitro  
Skin Irritants – In Vitro  
NO ANIMAL TESTING

### Adamson Labs Special Coupon

- Send the coupon below along with your samples and you will receive a 15% discount on your tests for those sample.
- All samples and tests you send at one time with the coupon will receive 15% off.

### ADAMSON ANALYTICAL COUPON

SEND THIS IN WITH YOUR SAMPLES TO RECEIVE

**15% off testing  
for your samples**

Coupon Terms:

Offer expires after July 29, 2011.

Coupon may not be combined with any other promotion or discount.

This offer valid only once per company.

## Pharmaceuticals

### Allergy

Brompheniramine  
Chlorpheniramine  
Dextromethorphan  
Diphenhydramine  
Doxylamine Succinate  
Guaifenesin  
Loratidine  
Phenylephrine  
Pyrilamine

### Antacid

Cimetidine  
Famotidine  
Ranitidine

### Anti-Rheumatoid

Camphor  
Capsaicin  
Menthol  
Methyl Salicylate  
Phenol

### Local Anesthetic

Benzocaine  
Lidocaine  
Tetracaine

### Oral Anesthetic

Acetaminophen  
Aspirin  
Caffeine  
Ibuprofen  
Naproxen

### Preservatives

Benzyl Alcohol  
DMDM Hydantoin  
Kathon CG  
Methyl Paraben  
Phenoxyethanol  
Propyl Paraben

### Anti-Fungal

Clotrimazole  
Miconazole  
Terbinafine  
Undecylenic Acid

### (1,2AB) Di-ethylephthalate

Caffeine  
Chlorhexidines  
Chromatographic Purity  
FTIR  
ID by USP  
Loss on Drying  
Nitrosamine  
Organic Volatile Impurities  
Pesticide Impurities  
Residual Solvent  
(Methanol)  
Residue on Ignition  
Sennoside  
Specific Rotation

**And Much More!**

## Analytical Testing Services

We specialize in performing analytical testing for hundreds of different substances. Our highly qualified chemists continue to develop more unique test methods to increase what we can offer to our clients. Here is a categorized listing of some of our available tests. For a complete listing of our analytical tests please visit our website.

## Personal Care OTC & Cosmetics

### Sun Screen Actives

Avobenzene  
Homosalate  
Octinoxate  
Oxybenzone  
Padimate O  
Titanium Dioxide  
Zinc Oxide

### Antibacterial

Benzalkonium Chloride  
Benzethonium Chloride  
Chloroxylenol (PCMX)  
Triclocarban  
Triclosan

### Acne Treatment

Benzoyl Peroxide  
Salicylic Acid

### Alcohol

Ethanol, Isopropyl

### Skin Protection

Castor Oil  
Dimethicone  
Mineral Oil  
Petrolatum

### Anti-Dandruff

Coal-Tar  
Sulfur

### Allantoin

### Arbutin

### Colloidal Oatmeal

### Colloidal Sulfur

### Hydrocortisone

### Hydroquinone

### Quaternium

### Witch Hazel
