

Quality Control

AAL, Inc. is a full service analytical laboratory, focused on accurate results and excellent Quality Control. AAL performs all studies and analyses in complete compliance with CGM/GLP regulations, as well as meticulous adherence to our own stringent QA/QC guidelines.

Confidentiality

Included in our QC procedure is an emphasis on confidentiality. We know how important your products and formulas are to you and you can be assured that discretion is a priority with us.

Accountability

Accountability is also important to AAL. Our laboratory's computer system has been designed for accuracy and tractability of laboratory documentation. Our computerized tracking system includes data on each sample from the moment it arrives at our office, until the results are released to you.

Our Staff

Our staff consists of skilled and experienced professionals with expertise in chemistry. AAL's professional team performs a wide range of chemical and instrumental analyses, using only certified procedures and state-of-the-art instrumentation.

Adamson Analytical Laboratories, Inc

Our mission is to satisfy our clients by providing reliable and accurate testing in a timely manner.

Our goal is to provide the highest quality of analytical support through excellence in technology and service.

FDA Registration # 203073-

Nutritional Testing

At AAL, we test many different kinds of dietary supplements. From raw materials to finished products, we have you covered! We can provide you with oil and water-soluble vitamins tests. We have the capability to test a full range of samples including tablets, capsules and powders. Most of the common testing analyzed in our nutritional area include the following:

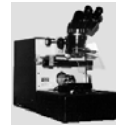

- ❖ Amino Acid Profiles
- ❖ Amylase
- ❖ Beta Carotene
- ❖ Biotin
- ❖ Calcium
- ❖ Chondroitin Sulfate
- ❖ Citric Acid
- ❖ Cyanocobalamin
- ❖ Dietary Enzymes
- ❖ Folic Acid
- ❖ Iron
- ❖ Lactose
- ❖ Lipase
- ❖ Lysine
- ❖ Manganese
- ❖ Magnesium
- ❖ Niacin
- ❖ Nutritional Labeling
- ❖ Omega-3 Fatty Acids
- ❖ Pantothenic Acid
- ❖ Polysorbate Testing
- ❖ Potassium
- ❖ Thiamine
- ❖ Vitamin A
- ❖ Vitamin B Actives (B1, B2, B3, B6)
- ❖ Vitamin C
- ❖ Vitamin D
- ❖ Vitamin E
- ❖ And More Vitamins and Minerals...

Regulatory Compliances

In addition to our own strict guidelines, our lab conducts analysis only under approved USP, BP, EP, AOAC, and FCC methods. AAL is also licensed with the DEA, which allows us to be able to test steroids, controlled drugs, etc. Most importantly, we are registered with the FDA. Along with these outside compliances, we hold ourselves to the highest of standards concerning accuracy, cleanliness and confidentiality.

Equipment

We use only the most state-of-the-art instruments to provide precise, timely results. AAL currently has 15 HPLC and 4 GC systems. With these instruments we can do everything from anti-bacterial testing to vitamins and chromatographic purities. Our stability testing equipment consists of 25°C/60% RH and 40°C/75% RH ovens that are FDA compliant to ensure that the shelf life will always be correct.

Pricing

All of our prices are based on a 5 to 7 working day turn-around service. For a fee, we can have your results on a 24, 48, 72, or 96 hours rush service. Also a same day rush service is available, depending on the type of analysis being performed. We offer reasonable prices so that even the smallest companies can meet their budgets.

We also offer discounts for multiple samples of the same analysis. However, the samples must be sent in at the same time. We are growing and adding more tests everyday, so for an exact price on an analysis, please give us a call and we would be delighted to give you a quote.

Herbal Testing

AAL also analyzes many different types of herbs. No matter if it's identification, potency, marker quantitation, or trace impurities, we have every type of test that you need. We have stability testing available for accelerated age studies to predict the shelf life of your products. We know that the natural product industry is evolving everyday, so we have staff dedicated to research the current trends. When a new herb or extract becomes available, AAL will have a method available to test. Some of the most popular testing our clients request consist of the following:

- ❖ Astragalus Extract
- ❖ Blackonosh
- ❖ Dandelion Root Extract
- ❖ Echinacea
- ❖ Schizandra Extract
- ❖ Ginkgo Biloba
- ❖ Ginsengs
- ❖ Grapes Seed Extract
- ❖ Green Tea
- ❖ Rose Hips
- ❖ Lutein
- ❖ Lycopene
- ❖ Milk Thistle
- ❖ And More Herbs...
